GO ONLINE FOR CITY CODES/ ORDINANCES

All cities are governed by their Code of Ordinances. An ordinance is a law passed by a municipal government. There are some ordinances that govern certain activities within the City that citizens might be unaware of because they are unique to our City. To view the City Codes of Ordinances go to: www.alamoheightstx.gov/government/city-codes-ordinances/ or <https://ecode360.com/AL6722>

Every Bedroom Needs a Working Smoke Alarm!

Half of home fire deaths happen between 11 p.m. and 7 a.m., when most people are asleep.

Test alarms at least once a month by pushing the test button.

Some people, especially children and older adults, may need help to wake up. Make sure someone will wake them if the smoke alarm sounds.

Replace all smoke alarms when they are 10 years old or if they do not sound when tested.

When the smoke alarm sounds, get outside and stay outside. Go to your outside meeting place.

Call the fire department from a cellphone or a neighbor's phone. Stay outside until the fire department says it's safe to go back inside.

The Alamo Heights Fire Department continues to promote the benefits of the free home safety inspection. Firefighters will complete a detailed checklist at your home to identify potential hazards and make recommendations to mitigate the hazards. Checking the lint trap and lint duct of your clothes dryer is just one of the fire safety issues the firefighters can address, using a special camera. The colder weather offers additional issues that can pose hazards to you and your family. Colder weather also poses increased risks with heating systems and the use of portable space heaters. Please download the attached safety flyers in our "Community Education" section for important information at <https://www.alamoheightsfire.com/page/community-education>. Please email Allen Ottmers at aottmers@alamoheightstx.gov to schedule your home safety inspection.
