## Alamo Heights Pool Pocket Park

Construction is under way on the City of Alamo Heights' Pool Pocket Park. Located in a portion of the parking lot between the Alamo Heights Pool and the Little League fields, the almost half-acre park will include a pavilion, play area & features & public restrooms outside existing Alamo Heights Pool area. The concessionaire at the Heights Pool will be able to serve walk-up customers via the new Pocket Park. The remaining portion of the parking lot will be reconfigured to be more efficient. Adding the Pool Pocket Park will only result in a net loss of less than 10 parking spaces.

Ford, Powell & Carson Architects and Planners (FPC) are the architects leading the design and engineering of the shade structure & related Pocket Park improvements. Coral Studios is providing landscape architectural support. Malitz Construction will conduct the general construction services for the project.

Groundbreaking began in late February and is anticipated through early Summer. Malitz will take measures to ensure construction activities do not impede normal AH Pool operations. Thank you for your patience as progress is made for the Alamo Heights Pool Pocket Park.
