International Firefighters' Day May 4th, 2024

"The role of a firefighter in today's society – be it urban, rural, natural environment, volunteer, career, industrial, defense force, aviation, motor sport or other, is one of dedication, commitment and sacrifice – no matter what country we reside and work in. In the fire service we fight together against one common enemy – fire – no matter what country we come from, what uniform we wear or what language we speak."

IFFD Founder, Lt. JJ Edmondson 1999

Firefighters dedicate their lives to the protection of life and property. Sometimes that dedication is in the form of countless hours volunteered over many years, in others it is many selfless years working in the industry. In all cases it risks the ultimate sacrifice of a firefighter's life.

International Firefighters' Day (IFFD) is a time where the world's community can recognize and honor the sacrifices that firefighters make to ensure that their communities and environment are as safe as possible. It is also a day in which current and past firefighters can be thanked for their contributions.

THANK YOU to all who serve to protect lives and communities.
