School Zone Safety

The Alamo Heights Police Department urges all motorists to use caution and be more alert while driving on streets around the school campuses and anywhere children may be walking or riding their bicycles to school. Students are easily distracted this time of year and may inadvertently get too far away from the curb or cross the street without looking both ways.

Remember that the speed limit in ALL school zones is 20 m.p.h.

Streets around school campuses can become heavily congested before and after school. If traveling through or near a school zone, please plan accordingly and expect delays.

According to Texas law, drivers have to stop when a school bus extends its stop sign or when it turns on its flashing red lights. Examples of when you must stop are:
